

NATATOR 40 / NATATOR 125

(Turning knob)

Item no. : RX-40700000

Free-standing water-resistance testing device

The NATATOR 40 / 125 comprises a stainless steel tank which holds the watch to be tested. After being completely filled with water, the cover is closed and locked. Pressuring begins by tightening the side handle until the pressure required is reached, indicated by the built-in manometer (1 to 40 bars / 125 bars).

- Ideal for unitary testing and after-sales service
- Pressure up to 40 bars or 125 bars (400 or 1,250 M)
- No electricity supply required
- Completely free-standing
- Built-in manometer
