

C551: S-LINE station

S-LINE range polishing stations enable you to carry out any finishing work, using the accessories available in the CREVOISIER catalogue.

These Swiss-Made stations meet current requirements, and offer the best quality-price ratio on the market..

C551 ESSENTIAL VARIETIES DAZZLING SURFACES

It is this majestic nature of the Franches-Montagnes region
which forges our spirit of innovation and perfection

No compromise

Every CREVOISIER machine is a unique piece stamped with its own inimitable character.

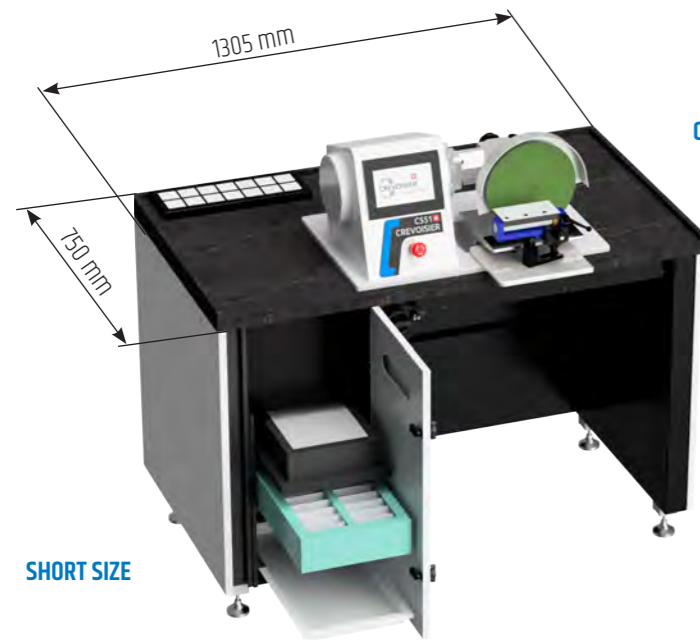

Innovation and Perfection are values driving us to surpass our limits and achieve new goals.

Welcome to the world of CREVOISIER.

Ergonomic

An expressive design, with sleek lines and optimised floor space requirement.

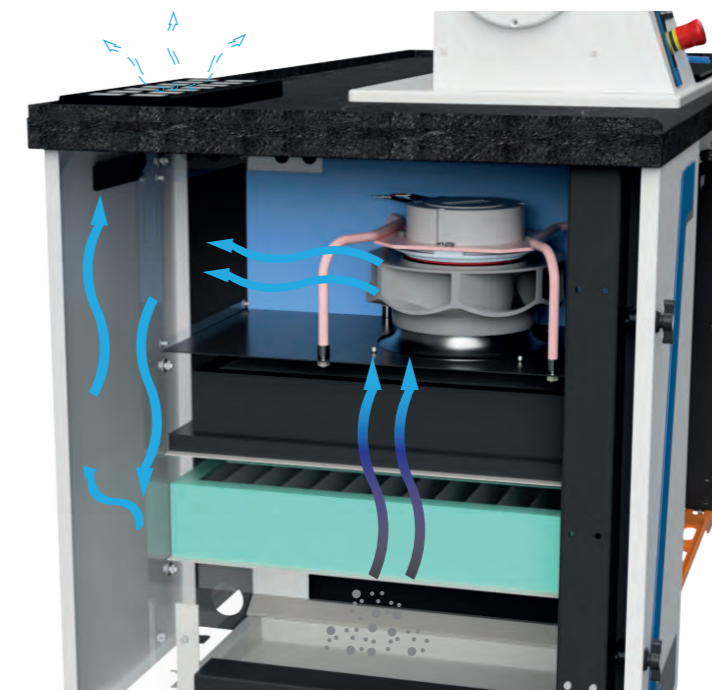

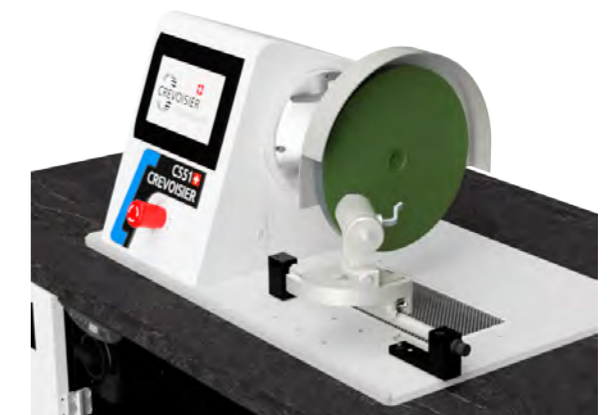

S-LINE range polishing stations meet the ergonomic standards in force, and provide a work space suited to current requirements.

Performance

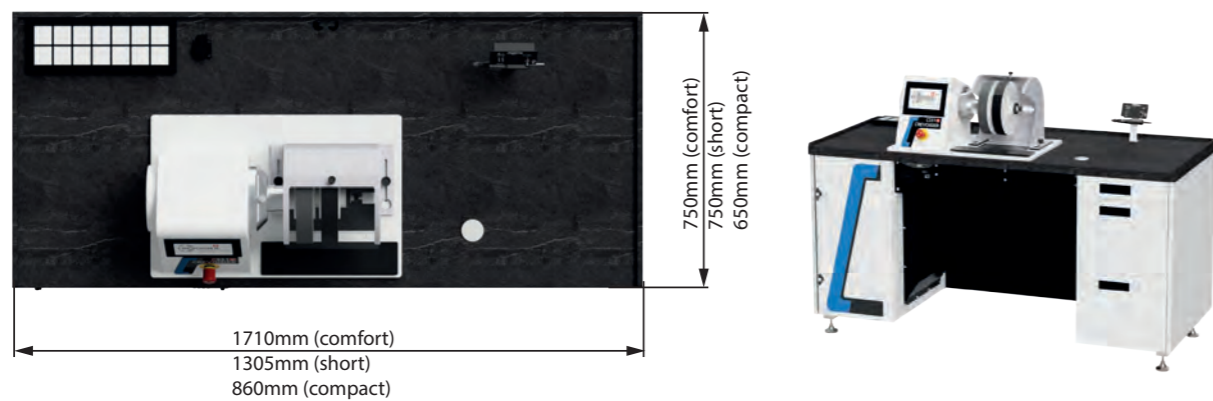

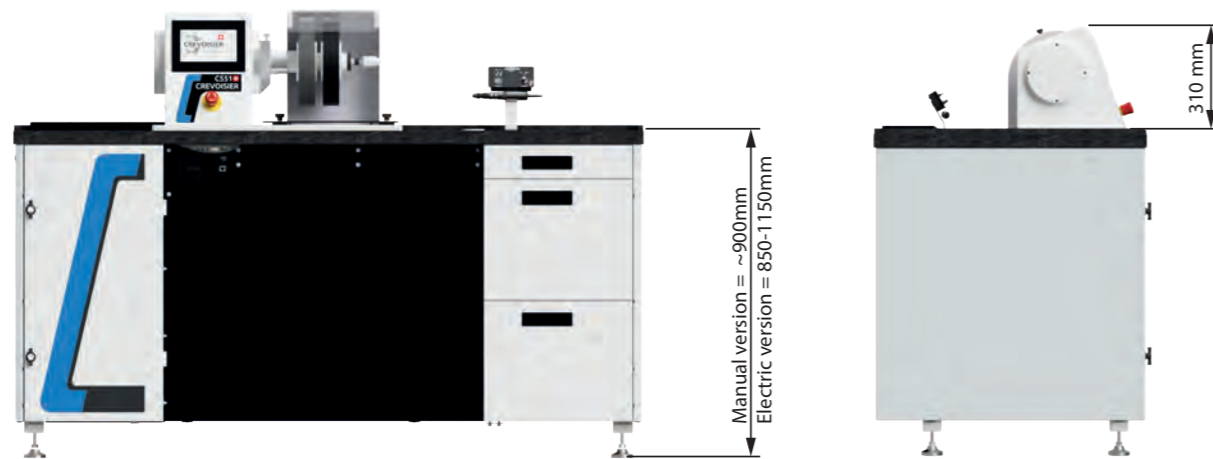

S-LINE range stations are equipped with a C551 machine with a CREVOISIER high-quality motor spindle, compatible with many of the brand's accessories.

Its high-power suction unit has an associated filtration system, to provide optimum user working comfort.

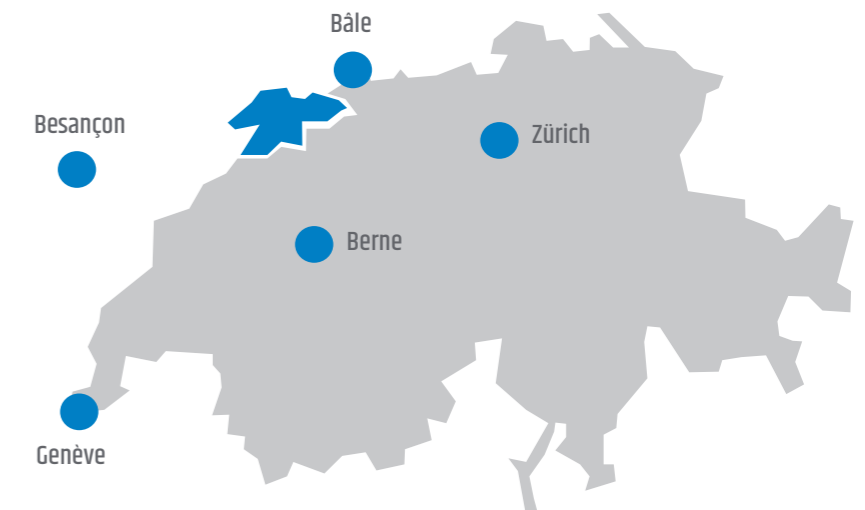

An innovative design enables the filtration system to be fully integrated into the work place, with a 20 cm depth saving.
